Baya, the indoor spa

Baya is the perfect choice to transform any indoor space into a place of well-being, ease and respite. Two form fitted loungers oriented face to face ensure unforgettable moments of relaxation and awakened sensation.

Baya is only 66 cm high so you can easily step in and out, even without a step. Furthermore, its low lines make it easy to manoeuvre through narrow interior doors.

Remote install kits

Remote installation kits are available to allow installation of the spa pack at a distance from our in-ground and portable spas. These kits comprise 7.5 metres of the various tubes and hoses required to connect the spa pack (blower, heater, ozonator, twospeed pump and massage pumps).

Model comes in 8 shell colours and a choice of 4 wooden surrounds
